Hon. Robert H. Todd,
Member of the Republican Natl. Committee
San Juan, Porto Rico

Dear Mr. Todd:

Subject, of course, to the claims of your own city and subject also to any commitment already made, I earnestly request your support for the acceptance of Philadelphia's convention invitation.

An explanatory pamphlet has gone forward to you under separate cover. Please do me the favor of examining it closely. I believe, taking all things into consideration, there are more reasons for meeting in Philadelphia than in any other city. I venture to hope that after due consideration you will agree with me. It will be gratifying to me in an extraordinary degree if you feel that you can support Philadelphia's claim.

Yours sincerely,

George Wharton Pepper
